G O R I L L A B O M B

AVG THC: 23%

This strain is super potent. It derives from Gorilla Glue, a super sticky, pungent, and earthy variety that has barreled into the mainstream cannabis market and dominated in the last few years. With THC Bomb added into the mix, Gorilla Bomb becomes an ultrapowerful beast.

It tastes like sour and sweet chocolate with notes of Diesel fuel to finish it off.

Ideal for evening usage. This strain's high will strap you to the couch if you don't mind the dosage. This potent strain does start with a calm and joyous euphoria that slowly rolls into a sedative relaxation.

HARLEQUIN

AVG THC: 12% AVG CBD: 13%

Harlequin is a 75/25 sativa-dominant strain renowned for its reliable expression of CBD. A descendant of Colombian Gold, a Nepali indica, and Thai and Swiss landrace strains, you can depend on Harlequin to provide clear-headed, alert sativa effects.

When properly cured, the buds smell musky with traces of tropical fruit underneath. The combusted flowers have a woody, earthy scent and taste of mango and citrus fruits when inhaled.

This strain is one of the most effective out there for treatment of pain and anxiety, as CBD can counteract THC's paranoia while amplifying its painkilling properties.

PRE - 98 BUBBA KUSH

AVG THC: 24%

The origins of Pre-98 Bubba Kush are rather sketchy, with some saying it was a landrace variety imported from Pakistan/Afghanistan in the 80's, to other claims linking it's early days to hip hop group Cypress Hill.

P-98 features a pungent, musky scent and coffee-like taste. This strain provides consumers with a consistent indica-heavy body sensation, making it a favorite for more than a decade.

P-98 is great for those looking for pain relief without feeling overwhelmed or incapacitated, and it might be just the thing when you're looking to relax and unwind at the end of a long day.
